EGB3-3636	34"	4	34"	2	34"	2	31 3/4"	2	31 5/8"	1

1.

Lay parts A, B & C on a flat surface as shown above.

2.

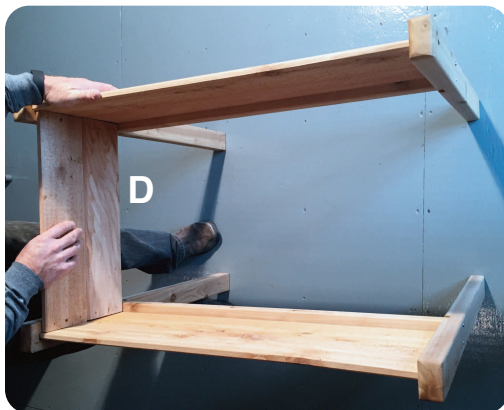

Attach A to B & C, using the provided 2 1/2" screws, through the predrilled holes on A, as shown above.

3.

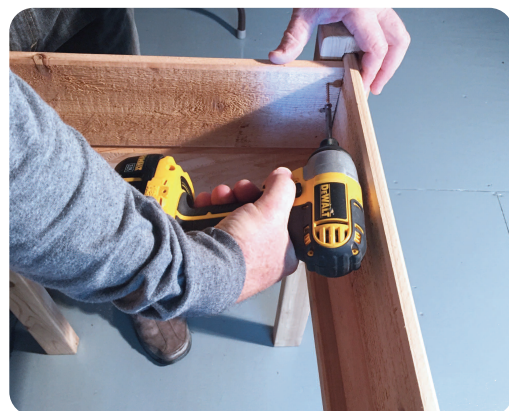

Attach a second part A to the other side of B & C as described in Step 2. This completes one side of your Elevated Garden Bed. Complete the second side, using Steps 1-3.

4.

Stand up the two completed sides and place part D in between them, on the ledge of part B & holding it tight to both assembled sides as shown above..

5.

Attach part D to part A using the provided 1 5/8" screws, through the predrilled holes, as shown above. Repeat steps 4 & 5 for the other side.

4.

Your Elevated Garden Bed should now look like this.

7.

Part E is a bundle of the bottom boards. Lay these boards along the ledges of parts B, as shown above. These parts will simply lay on these ledges, not being attached. There will be gaps between them to allow for drainage.

8.

Place the provided landscape fabric in your Elevated Garden Bed. You are now ready to fill your Elevated Garden Bed with soil and plant your favorite herbs, flowers and vegetables.

We highly suggest sealing your Elevated Garden Bed. This will lengthen the life of your Elevated Garden Bed, helping protect it from the sun, rain & other elements.
